Description

MCM's 2525P-80-I lock is a robust and functional solution for wooden doors, designed for security and ease of use. This rim lock model stands out for its two-turn lever mechanism, which guarantees a firm and secure closure. Its design includes a latch that can be operated from the outside with a key and from the inside using a handle, allowing comfortable and practical access.

- **Model:** 2525P-80-I
- **Type:** Rim lock
- **Material:** Suitable for wooden doors
- **Mechanism:** 2-turn lever
- **Latch:** Can be operated from the outside with a key and from the inside with a handle
- **Cylinder:** Double cylinder for greater security

The 2525P-80-I lock combines a functional design with advanced security features, being a reliable option for those looking to protect their spaces. Its installation on a wooden door is simple and adapts to various architectural configurations.
