Description

The 301RP/80 deadbolt is a security device designed to offer robust protection for residential or commercial access. Its manual opening mechanism from the inside and key on the outside provides a balance between convenience and security, allowing efficient access control.

- Deadbolt type: Manual, with push button opening from the inside and key from the outside.
- Box dimensions: 83 mm wide x 85 mm high.
- Material: Chrome finish that provides corrosion resistance and a modern aesthetic appearance.
- Steel bar diameter: 18 mm, ensuring high resistance to forced entry.
- Security cylinder: Round design with a thickness of 30 mm and a length of 50 mm, which offers greater protection against tampering.
