Description

The Suprtex Extra Large T.10 3L Rough Latex Glove is a tool designed for applications that require a high degree of sensitivity and dexterity, without compromising safety. Its ergonomic design and high-quality material make it a reliable choice for tasks involving handling small parts and delicate components.

- Made with seamless nylon backing, providing comfort and flexibility.
- Natural latex coating on the palm and fingernails, ensuring an effective grip in a variety of conditions.
- Fully open back, allowing optimal ventilation and reducing heat build-up.
- Excellent dexterity and sensitivity, making it easy to handle precision items.
- Grip capabilities both dry and wet, ideal for varied work environments.
- Good abrasion resistance, providing reliable performance against cuts, tears, and punctures.
- Extra-large size (S.10) accommodates larger hands, ensuring a comfortable fit.
