Description

The IFAM U90 90mm brass square shutter lock is a security device designed to provide effective protection for doors and shutters. Its robust construction and functional design make it a reliable choice for those looking to secure their spaces. This padlock stands out for its durability and resistance to adverse weather conditions, ensuring optimal performance over time.

- **Dimensions:** 90 mm high, providing a proper fit for various applications.
- **Material:** Made of brass, ensuring resistance to corrosion and wear.
- **Closing mechanism:** High security locking system that makes unauthorized manipulation difficult.
- **Key type:** Compatible with IF 150 JMA key copy, facilitating duplication and controlled access.
- **Recommended use:** Designed specifically for shutters, although it can also be used on other types of external locks.
- **Design:** Square, providing a modern and functional aesthetic, adaptable to different environments.
- **Resistance:** High impact resistance capacity attempts at breaking in, increasing the security of the protected space.
