Description

CVL's 1964A/0 Nickel Cylinder Lock is designed to offer security and durability in residential and commercial settings. Its robust construction and high-quality materials ensure optimal performance and a long lifespan, adapting to a variety of locking needs on entry doors and other applications. This model stands out for its functional design and easy installation.

- Material: Steel body with nickel finish, providing resistance to corrosion and wear.
- Lock type: High-security cylinder, compatible with standard keys.
- Dimensions: Compact design that fits most doors without additional modifications.
- Closing method: Double lever system that ensures a firm and reliable closure.
- Certification: Complies with safety regulations, guaranteeing its effectiveness and resistance to unauthorized opening attempts.
- Installation: Simple mounting system that allows quick installation on wooden and metal doors.
- Recommended use: Suitable for entrance doors, interior doors and other spaces that require an additional level of security.
