Description

MCM's 2556AP-60-D lock is a robust and functional solution for securing wooden doors. Designed for surface installation, this lock combines a lever system with a double-cylinder latch, offering a suitable level of protection for a variety of residential and commercial applications.

- Model: 2556AP-60-D
- Type: Rim lock
- Material: High-strength steel
- Application: Wooden doors
- Operation: Double-cylinder latch
- Exterior access: Key
- Interior access: Handle
- Dimensions: Adapted for installation on standard doors

This lock is distinguished by its functional design, which allows for efficient and secure operation. The double-cylinder system provides increased security by requiring a key from both the outside and inside, making unauthorized access difficult. The wood installation ensures aesthetic integration and long-lasting performance, making it a reliable option for those looking to enhance the security of their spaces.
