Description

The 115 mm Basic Laser Segmented Diamond Blade, model 50711 by Bellota, is a high-quality tool designed for cutting materials in a variety of construction projects. Its segmented structure allows for optimal performance, ensuring precise and efficient cuts in demanding working conditions. This blade is especially suitable for dry cutting, making it a versatile option for different applications in construction and remodeling.

- Diameter: 115 mm
- Type of cut: Dry
- Laser segmentation: Improves cooling and reduces wear
- Recommended use: Construction materials, such as concrete, ceramics, and others
- Compatible with standard cutting tools on the market
- High durability and resistance to high temperatures

Specifications

EAN	8414299405453
Manufacturer	BELLOTA
