Product sheet

Phillips screwdriver PH0x75mm 409-0-75 Irimo

Brand: IRIMO

Reference: ALM 3065.0200

Tool designed for Phillips screws, with a treated tip to improve grip and corrosion resistance. Its two-component handle ensures an ergonomic and efficient grip, optimizing force transfer. Additionally, its design prevents the tool from rolling, making it easy to store and use in professional settings.

Description

The Irimo PH0x75mm 409-0-75 Philips screwdriver is a tool designed to offer high performance in jobs that require precision and durability. Its robust and functional design adapts to the needs of intensive use, guaranteeing an efficient and comfortable working experience.

- Screwdriver type: Philips, suitable for Philips screws.
- Sand-polished tip, which improves grip and minimizes the risk of slipping.
- Heavy-duty construction, designed for intensive use in various applications.
- Bi-component handle that provides an ergonomic and comfortable grip, facilitating torque transfer.
- Handle shape that prevents the tool from rolling, keeping it in place when not in use.
- Hole in the handle for hanging, allowing practical and accessible storage.
- Complies with ISO 8764 and DIN 5260 standards, ensuring quality and performance standards.
