

## Product sheet

## Tin Wire Spool with Deoxidizer 100g Ø1.5mm SN100

Brand: ALM

Reference: ALM 3132.1405

Tin wire coil designed to provide effective bonding in soldering processes. Its composition includes a deoxidizer, which improves the fluidity and quality of the solder. With a diameter of 1.5 mm and a weight of 100 grams, it is suitable for various technical applications.

### Description

The SN100 soldering wire coil with deoxidizer is a product designed for soldering applications that require a high level of quality and reliability. With a diameter of 1.5 mm and a weight of 100 grams, this wire is suitable for jobs that demand precision and durability. Its composition, which varies between 35% and 50% tin, guarantees optimal performance in different types of solders.

- Diameter: 1.5 mm
- Weight: 100 grams
- Composition: 35-50% tin (Sn)
- Includes deoxidizer to improve soldering quality
- Suitable for various soldering applications

### Specifications

|              |               |
|--------------|---------------|
| EAN          | 8011982251009 |
| Manufacturer | ALM           |
