Description

The 22cm Deep Enamel Frying Pan is a cookware product designed to deliver optimal performance in preparing a variety of recipes. Its enamel construction provides a nonstick surface that makes cooking and cleaning easier, while its deep design allows for greater cooking versatility. This frying pan combines functionality and style, making it suitable for a variety of cooktops.

- Diameter: 22 cm, ideal for small to medium-sized portions.
- Material: High-quality enamel ensures strength and durability.
- Deep design allows for greater capacity for stews and dishes with sauces.
- Ergonomic handle provides a comfortable and secure grip during use.
- Compatible with all cooktops, including gas, electric, and ceramic.
- Non-stick surface makes cooking and cleaning easier, reducing the need for oils and fats.
- High temperature resistant, suitable for a variety of cooking techniques such as frying, sautéing, and boiling.
