Blister 40 Hexagonal Nuts 4mm

Brand: ALM

Reference: ALM 0259.0472

This set of 4mm hex nuts is ideal for engineering and mechanical applications, ensuring a secure and precise fit. Made from high-quality materials, they offer strength and durability, making them perfect for assemblies in various industrial and DIY projects. Their design makes them easy to install and maintain.

Description

The 4mm hex nut is an essential component in the mechanical and construction fields. Designed to provide a secure and firm fit, this nut is compatible with a variety of bolts and screws of the corresponding size. Its manufacture with high quality materials guarantees corrosion resistance and durability under different conditions of use.

- Dimensions: 4 mm in diameter, suitable for applications in confined spaces.
- Material: Carbon steel, offering high strength and longevity.
- Surface treatment: Galvanized finish that prevents rust and improves aesthetics.
- Type: Standard hex nut, compatible with commonly used tools.
- Usage: Suitable for mechanical, electrical and construction applications.
- Regulations: Meets industrial standards to guarantee its quality and performance.

The 4 mm hex nut is versatile and is used in a wide range of applications, from furniture assembly to DIY projects and mechanical repairs. Its hexagonal design allows for a better grip, making it easier to tighten and disassemble with the right tools. This product is a reliable choice for those looking for effective and superior quality fasteners.

Specifications

EAN	8426024002455
Manufacturer	ALM
Cable cross-section (mm²)	4
