Description

The Tesa 200350HL lock is a security device designed to offer a robust and reliable solution for locking doors. Its brass construction not only provides an aesthetic finish, but also guarantees durability and corrosion resistance. This model is a versatile option that adapts to different types of doors, ensuring optimal long-term operation.

- Key type: Mortise lock
- Inset: 40 mm
- Material: Brass plated
- Dimensions: Designed for a standardized fit on common doors
- Security: Reliable locking system that provides good protection against intrusions
- Installation: Easy to mount and compatible with various door configurations

The 200350HL lock is characterized by its functional design, which allows for smooth and efficient operation. Its internal mechanism is designed to resist wear and tear, contributing to the product's longevity. This model is suitable for residential and commercial environments where security is a priority.
