Description

The Stanley TMLH 1-42-251 40cm rectangular level is a tool designed to provide accurate and reliable measurement in a variety of construction and DIY jobs. Its robust construction and high-quality materials ensure long-lasting performance under demanding conditions.

- Made from a virtually non-deformable material, ensuring durability and resistance to daily use.
- Equipped with two colored, virtually unbreakable level bubbles, which facilitate viewing in different lighting conditions.
- It incorporates an adjustable horizontal bubble, allowing fine adjustments to ensure maximum precision.
- It offers an accuracy of ± 1 mm/m, which is essential for jobs that require high accuracy in leveling.
- Coated with an electrostatic powder coating that provides resistance to shocks, abrasion and weathering, prolonging the life of the product.
- The Antichoc bubbles are made of Altuglas, a material known for its impact resistance, ensuring its long-term functionality.
