Description

IBILI's 19cm induction and ceramic hob diffuser adapter is an accessory designed to optimize cooking on induction and ceramic hobs. Its high-quality stainless steel construction ensures even heat distribution, allowing for efficient energy use and improving the performance of your cookware.

- Dimensions: 19cm diameter.
- Material: Stainless steel with an 18% nickel content, providing corrosion resistance and durability.
- Compatible with induction and ceramic hobs.
- Specifically designed for flat-bottomed cookware, ensuring optimal contact with the cooking surface.
- Works similarly to the diffuser bottom of a pot, improving heat transfer.
- Easy to clean and maintain, thanks to its smooth and durable surface.
