Wolfpack 10-200 A Inverter Welding

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 07170252

The Wolfpack 10-200 A Inverter Welder is a powerful and versatile tool for DC electrode welding. With a compact and lightweight design, it's ideal for portable work. It allows welding current adjustment from 10 to 200 amps and is compatible with various electrode types. It also features thermal protection, a fan, and meets IP21S safety standards and Class F insulation. Ideal for professional use.

Description

The Wolfpack 10-200 A Inverter Welder is a powerful and versatile tool that will allow you to perform welding jobs efficiently and accurately.

- Power: 7.0 kw
- Amperage: 10-200 A
- Input current: 32 A
- No-load voltage: 65V
- Welding type: inverter, single-phase, portable, ventilated
- For MMA welding electrode in direct current (DC)
- Compact and lightweight
- Type of electrode used: rutile, basic, stainless steel, cast iron
- Adjustable from 10 to 200 amps
- With fan for better cooling
- Operating voltage: 220 volt
- Factor power: 0.7
- With thermal protection for greater safety
- Protection class: IP21S
- Insulation class: F

The Wolfpack 10-200 A Inverter Welding Machine is ideal for professionals looking for a reliable, high-performance tool for their welding jobs. With its compact and lightweight design, you can easily transport it to any location where you need to carry out repairs or welding jobs. In addition, its wide

amperage adjustment range and compatibility with different types of electrodes make it a versatile and practical option for all types of projects. With the Wolfpack 10-200 A Inverter Welding Machine, you can obtain quality results quickly and efficiently.

Specifications

High	31
Width	26
EAN	8435450468964
Weight (kg)	6.646
Depth	41
