Description

The 12,000 kg Hydraulic Bottle Jack is a sturdy and reliable tool for lifting heavy loads weighing up to 12,000 kg. With a minimum height of 230 mm and a maximum of 465 mm, this hydraulic jack is ideal for working safely and efficiently with all types of vehicles or heavy objects. Key technical features:

- Maximum weight lift: 12,000 kg.
- Minimum/maximum height: 230/465 mm.
- Stable base for greater safety during use.
- Actuating lever that facilitates the lifting process.
- It is placed in a vertical position under the load and, by pumping the hydraulic piston with the lever, allows loads to be lifted without additional effort.
- Also known as a hydraulic jack, hydraulic car jack, bottle jack, vertical jack, car lift, among other names.

This hydraulic bottle jack is an essential tool for mechanical workshops, garages and any environment where heavy loads need to be lifted safely and effectively. Its sturdy design and lifting capacity make it a reliable option for carrying out maintenance, repair or tire changing work on vehicles of all types. Get yours and simplify your lifting tasks!
