Description

The 5000 kg Hydraulic Bottle Jack is an indispensable tool for performing lifting tasks safely and efficiently. With a load capacity of up to 5,000 kg, this hydraulic jack is ideal for lifting all types of vehicles or heavy objects with ease. Key technical features:

- Maximum weight lift: 5,000 kg.
- Minimum/maximum height: 216/413 mm.
- Stable base that guarantees safety during the lifting process.
- Actuating lever that allows loads to be lifted with little effort.
- It is placed in a vertical position under the load and, thanks to its hydraulic piston, the lever can be pumped to raise the load quickly and safely.
- Also known as a hydraulic jack, hydraulic car jack, bottle jack, vertical jack, car lift, among other names.

With the 5000 kg Hydraulic Bottle Jack, you can carry out maintenance, repair or tire change tasks on your vehicle easily and without complications. Its strong and durable design makes it an essential tool for any mechanical workshop or automotive DIY enthusiast. Don't miss out on yours and make sure you always have this handy hydraulic jack on hand!
