Description

The 3mm Galvanized Cable (100 Meter Roll) is a strong and durable product that stands out for its versatility in different applications. This galvanized cable is ideal for general uses and low-responsibility jobs, such as DIY, tensioning, low-power mechanisms, agriculture, interior and exterior decoration. Key technical characteristics:

- Measurement: 3 mm. 6 x 7 + 1.
- 100 meter long roll.
- Not suitable for lifting loads.
- Ideal for home use.
- Not recommended for professional pulling, securing, or lifting loads.
- Also known as steel cable, galvanized cable, steel cables, among others.

The 3mm Galvanized Cable is a reliable and safe product for various applications around the home or for DIY projects. Its strength and durability make it an ideal choice for jobs that do not require lifting heavy loads. With this cable, you can perform different tasks efficiently and safely, ensuring optimal results for every project.
