Description

The Murray ceiling light is a modern and elegant design, ideal for any space in your home or workplace. Made of metal, aluminum, and acrylic, this ceiling light stands out for its white/beech structure, which perfectly matches its futuristic design. The four intertwined light waves on a wooden base create an attractive play of light, adding depth and style to the room. With a power of 80 watts and an output of 8,800 lumens, this ceiling light features integrated LED technology, ensuring high performance and considerable energy savings. It also offers three selectable light temperatures (3000K, 4000K, and 6500K), allowing the lighting to be adapted to each activity and environment. Its remote control makes it easy to control the intensity and select the color memory, providing comfort and versatility in its use.
