Description

The ENEBRO series PTC ceramic vertical fan heater is an efficient and elegant solution for keeping any space warm. With a modern black design, this device combines metal, ceramic, and polycarbonate, offering 2000 watts of power. Its adjustable thermostat allows you to select between two heating levels, 1400 and 2000 watts, to adapt to your needs at any given time. It also features a visual flame effect that simulates a real fireplace, creating a cozy and relaxing atmosphere. Automatic oscillation ensures even distribution of warm air, while its triple safety system provides peace of mind. This fan heater also includes a remote control and a timer that allows you to program its shut-off for up to 8 hours, making it easy to use from anywhere in the room. With dimensions of 64x20x20 cm, it is easy to transport and adapts to different spaces.
