**Sifer corundum sanding disc
115x22 mm grit 50**

Brand: SCOA

Reference: SCO 26762

Corundum sanding disc designed for high performance in surface grinding and finishing. Its 115 mm diameter and specific grit allow for efficient adaptation to a variety of applications, ensuring precise and long-lasting results on metal, wood, and other materials.

[View product online](#)**Description**

This sanding disc, made with corundum, is a robust and versatile tool, ideal for roughing and finishing tasks on a wide variety of surfaces. With a 115 mm diameter, its design allows for comfortable handling and effective contact with the material, resulting in optimal performance. The 50 grit provides adequate aggressiveness for efficient material removal, facilitating work on metals and wood, among other materials. Thanks to its composition, this disc provides a long lifespan, making it a reliable choice for professionals and amateurs seeking high-quality results. The disc's structure ensures good heat dissipation, minimizing the risk of damaging the surfaces being worked. Its versatility allows it to be used with a variety of tools, adapting to the specific needs of each project. This item is essential in any workshop's arsenal, as it not only improves the effectiveness of the sanding process but also contributes to achieving finer, more professional finishes. The combination of durability and performance makes this tool indispensable for those who value precision in their work.
