IBC 125 mm ceramic cutting disc

Brand: SCOA

Reference: SCO 38033

Cutting disc designed for working with ceramics, offering high precision and durability. Its structure allows for a clean and efficient cut, minimizing the risk of fractures in delicate materials. Ideal for construction and remodeling applications, guaranteeing professional results on every project.

Description

This cutting wheel has been specifically developed for working with ceramics, providing an exceptional combination of precision and durability. Its optimized design allows for clean cuts, which is essential when working with materials that require careful handling to avoid fractures or damage. This wheel's ability to maintain consistent performance makes it an indispensable tool for professionals in the construction and remodeling sectors. Its use extends to diverse applications, from cutting tiles to creating custom pieces, ensuring that each task is performed with maximum efficiency. The technology used in its manufacture ensures that the wheel can withstand the wear associated with extended work, allowing operators to focus on the quality of the finish without worrying about the equipment. This tool not only optimizes work time but also contributes to achieving results that meet the most demanding market standards. Ultimately, it is an invaluable resource for those seeking precise and reliable cutting in their ceramic projects.

Specifications

EAN	8423224001080
Material	Ceramic
