**COD. 49573: FERPROX DOWNLIGHT LED EXTRA PLANO
230V 18W 6500K BLANCO ECO6018**

Description

This lighting fixture stands out for its minimalist design and its ability to integrate into a variety of environments, from offices to contemporary homes. The bright white light it emits, with a color temperature of 6500K, not only improves visual clarity but also creates a dynamic and stimulating environment, promoting concentration and well-being. Its extra-flat profile allows for discreet installation in ceilings, making it a versatile option for those seeking a lighting solution that doesn't compromise the aesthetics of the space. Furthermore, its energy efficiency contributes to a reduction in electricity consumption, which is beneficial for both the environment and the user's finances. The quality of the lighting provided ensures even light distribution, minimizing shadows and contrasts that can affect the perception of the environment. This type of lighting has become a preferred choice in interior design projects seeking a balance between functionality and style, providing an alternative that meets the demands of modern spaces and the needs of users. Its versatility and performance position it as an essential tool in the design of efficient and pleasant environments.
