Product sheet

Double white waterproof switch

Brand: SCOA

Reference: SCO 57401

A device designed for the efficient management of electrical circuits, offering safe and reliable control in lighting and power installations. Its sealed structure guarantees protection in demanding environments, while its double interruption allows for greater versatility in current management, adapting to various configurations.

Description

This device is an innovative solution for electrical circuit management, providing precise and safe control in a variety of lighting and power applications. Its sealed design makes it ideal for environments requiring resistance to moisture and dust accumulation, ensuring optimal performance even in adverse conditions. The ability to offer double interruption not only increases versatility in use but also facilitates maintenance and repair tasks without compromising user safety. Installation is simple, making it a practical choice for professionals and DIY enthusiasts. Furthermore, the device's white aesthetic blends harmoniously into different interior styles, allowing it to perform its function without clashing with its surroundings. This product is, therefore, a wise choice for those seeking efficiency and durability in electrical power management, offering solutions tailored to the specific needs of each installation. Its robustness and functionality position it as an essential component in any project requiring safe handling of electrical current.

Specifications

Colour	White
EAN	8435069301003
Type of installation	Estanco
