**Sunm hemispherical
consumption bulb 3u-s04 15w
800 lm e27 4200k**

Brand: SCOA

Reference: SCO 57598

Energy-saving lamp with an E27 socket, designed to offer efficient, high-quality lighting. Its 15W output provides up to 800 lumens, ideal for environments requiring warm, comfortable light. Its hemispherical design allows for even light distribution, optimizing visual comfort.

[View product online](#)**Description**

This energy-efficient lamp is a versatile and efficient option for those seeking quality lighting in their spaces. With a power of 15W, it is capable of emitting up to 800 lumens, making it a suitable light source for various applications, from work areas to rest areas. The 4200K color temperature offers a balanced light, promoting a welcoming environment without sacrificing the clarity needed for specific tasks. The lamp's hemispherical design not only contributes to a pleasing aesthetic but also allows for even light distribution, minimizing shadows and improving visual comfort. This feature is especially relevant in environments requiring constant, soft lighting. Furthermore, its E27 socket ensures easy installation and compatibility with a wide range of luminaires, facilitating its integration into different interior decors and styles. In short, this is a lighting solution that combines energy efficiency with optimal performance, adapting to user needs without compromising light quality.
