

Product sheet

4-socket cube with 16A ground connection, 3G1.5 m cable, 3 m

Brand: SCOA

Reference: SCO 57770

COD: 57770 ELECTRICIDAD CUBO 4 TOMAS C/TT 16A
CON INTERRUPTOR CON 1,5 METROS CABLE
MANGUERA REDONDA 3G1,5 MM2 = 77904

An electrical device that offers four outlets with protection technology and a 1.5-meter cable. Designed to facilitate the connection of multiple devices, its robust construction ensures optimal performance in both domestic and professional environments, guaranteeing safety and efficiency in daily use.

Description

This electrical device is designed to provide a practical and safe solution for connecting multiple electrical appliances at a single point. With a design that prioritizes robustness and durability, it allows for simultaneous use of various devices, ideal for both home and work spaces. Its protection technology adds an additional level of safety, minimizing risks associated with overloads or short circuits, which is essential in environments where multiple devices are used. The 1.5-meter cable offers flexibility in device placement, facilitating space organization and avoiding cable congestion in work areas. The combination of functionality and safety in this product makes it an essential tool for those looking to optimize the use of electrical energy without compromising the integrity of their equipment. Its modern and efficient design integrates easily into any environment, providing a comfortable and reliable user experience. Furthermore, its ability to support a wide range of voltages and currents makes it versatile and suitable for different types of appliances, ensuring consistent performance in various applications.

Specifications

Rated current (A)	16
EAN	8414834779049
