**Sifer board scraper 20x12 cm
metal handle 120 mm**

Brand: SCOA

Reference: SCO 83033

Designed for efficient surface abrasion, this scraper combines an ergonomic metal handle with a 120 mm wide blade. Its robust construction allows for extended use, facilitating the precise and effortless removal of stuck-on materials, ideal for professional applications in a variety of industries.

[View product online](#)**Description**

This instrument is presented as an essential tool for surface maintenance and preparation in professional environments. Its design incorporates a metal handle that fits comfortably in the hand, allowing for agile and effective handling during use. The 120 mm wide blade is designed to offer optimal performance when removing residue and adhering materials, guaranteeing precise results in each application. The robustness of the assembly ensures remarkable durability, making it a reliable option for tasks that require high strength and efficiency. Furthermore, its versatility makes it suitable for a wide range of industries, from construction to automotive, where finish quality is essential. In situations requiring meticulous work, this scraper stands out for its ability to facilitate processes that could otherwise be tedious and laborious. The combination of ergonomics and functionality allows the user to maintain a high level of control, reducing fatigue and improving productivity in the workplace.

Specifications

EAN	8435012442586
Material	Metal
