Lams hydraulic jack 5 tn lifting 197-402 mm

Brand: SCOA

Reference: SCO 95640

High-precision tool designed to facilitate work in tight spaces. Its black-coated construction ensures durability and corrosion resistance, while the integrated magnet ensures a firm grip. Ideal for mechanical and maintenance applications, optimizing assembly and disassembly processes.

Description

This device is presented as an efficient solution for tasks requiring lifting in space-constrained environments. Its robust design and blackened finish not only provide a professional aesthetic but also offer remarkable corrosion resistance, extending its lifespan even in adverse conditions. The adjustable range allows it to adapt to various lifting needs, facilitating access to hard-to-reach components. The built-in magnet contributes to a secure grip, eliminating the risk of unexpected slippage during use. This feature is particularly valuable in mechanical and maintenance work, where precision and stability are essential to ensure safety and efficiency in each operation. The tool significantly optimizes assembly and disassembly processes, allowing professionals to perform their tasks with greater agility and confidence. Thanks to its ingenious design, this equipment becomes an indispensable ally in workshops and workspaces that demand practical and effective solutions for lifting loads. Its versatility makes it suitable for a wide range of industrial and maintenance applications.
