T Brass Female - 1", GIBALTO

Brand: GIBALTO

Reference: GIB 000977

1" female brass connector that allows fluid flow to be divided or combined. Its design includes three equal-sized connections and a 90-degree side outlet, making it suitable for a variety of hydraulic applications, ensuring durability and resistance in demanding environments.

Description

The 1" Female Brass Tee is an essential component in piping systems that require the division or combination of fluid flows. Made of chrome-plated brass, this fitting offers durability and corrosion resistance, ensuring optimal performance in various industrial and domestic applications.

- Brass fitting designed to make branches of equal size.
- Female type connection, facilitating integration with other system components.
- Material: chrome-plated brass, which provides excellent corrosion resistance and a long service life.
- Threaded union, ensuring a firm and secure connection.
- T shape with a side outlet that forms a 90° angle with the main route, allowing efficient flow distribution.
- Three equal-sized mouths with female thread, each equipped with a reinforcing flange at the ends for greater stability and security in the connection.
- Available in various sizes to adapt to different needs and configurations of piping systems.

Specifications

EAN	8432453009774
Material	Latón
Thread	1"
