Female Brass Tee - 3/4", GIBALTO

Brand: GIBALTO

Reference: GIB 000953

Brass fitting with female connection, designed to branch fluid flow. Its T-shaped structure allows for efficient threaded connection, ensuring durability and strength. Ideal for applications requiring precise distribution in piping systems. Available in various sizes to suit different needs.

Description

The 3/4" Female Brass Tee is an essential component in piping systems, designed to facilitate the combination or division of fluid flow. Made of chrome-plated brass, this fitting offers durability and corrosion resistance, ensuring optimal performance in various applications.

- Brass fitting designed to make a branch of equal size.
- Female type connection, suitable for systems that require a secure and stable union.
- Material: chrome-plated brass, which provides excellent corrosion resistance and a long service life.
- Threaded union, which facilitates installation and guarantees a firm connection.
- T shape with a side outlet that forms a 90° angle with the main route, allowing efficient flow distribution.
- Three mouths of equal size with female thread, each equipped with a reinforcing flange at the ends for greater stability and security in the connection.
- Available in various sizes to suit different piping system needs and configurations.

Specifications

EAN	8432453009538
Material	Latón
Thread	3/4"
