Description

The 60x120 mm rectangular clamp is an efficient solution for ventilation and air handling systems. Designed to ensure a firm and secure fit, this clamp is a reliable choice for applications requiring fume extraction and aerothermal energy. Its white PVC construction not only guarantees durability, but also integrates easily into different environments, offering optimal performance in various conditions.

- Dimensions: 60x120 mm, suitable for a wide range of ducts and ventilation systems.
- Material: Made of PVC, providing corrosion resistance and a long service life.
- Color: White, allowing discreet integration into visible installations.
- Applications: Especially suitable for ventilation, air treatment, aerothermal energy and smoke extraction.
- Installation: Easy to assemble, ensuring a firm and secure fit in different types of ducts.
- Resistance: Able to withstand adverse environmental conditions, maintaining its functionality and appearance.
