Reduced Hexagonal Brass Extension MH - M3/4" - H1", GENIL

Brand: GENIL

Reference: GIB 000684

This brass component features a hexagonal design for easy handling and connection. With male and female connectors, it's ideal for applications requiring efficient transitions between different diameters. Its versatile dimensions make it a suitable option for a variety of installations.

Description

The MH reduced hexagonal brass extension fitting is an essential part for plumbing connections, designed for durability and a precise fit in piping systems. Made of high-quality materials, this extension fitting guarantees optimal performance in a variety of applications.

- Material: High-strength brass, providing excellent durability and corrosion resistance.
- Shape: Hexagonal design for easy adjustment and installation with standard tools.
- Connections: Male and female ports, allowing a secure and versatile connection in different piping configurations.
- Measurements: Available in various dimensions to suit different installation needs.
- Specific size: M3/4" - H1", suitable for specific connections that require a size reduction.
- EAN13 code: 8432453006841, for easy identification and inventory management.

Specifications

EAN	8432453006841
Material	Latón
