Description

The 1" PVC float with a diameter of 150 mm and M8 thread is an essential component for the maintenance and efficient operation of cisterns. Made of PVC material, this float is known for its durability and strength, making it a reliable choice for replacing parts in cistern systems. Its universal design allows it to be compatible with a wide range of models, ensuring a precise and secure fit.

- Material: PVC, known for its strength and durability.
- Diameter: 150 mm, suitable for various applications in cisterns.
- Thread: M8, ensuring a firm and secure fit.
- Color: White, which integrates easily with most cistern systems.
- Compatibility: Available in various diameters and threads to suit different needs.
- Usage: Universal replacement for cisterns, facilitating maintenance and prolonging the lifespan of the system.
- EAN13: 8432453090055, for easy identification and reference in inventories.

Specifications

EAN	8432453090055
Material	PVC
Thread	M8
