Description

The 3/4" PVC float with a 150 mm diameter and M6 thread is an essential component for the proper functioning of cisterns. Made of PVC material, this float is known for its durability and resistance, making it a reliable choice for replacing parts in cistern systems. Its white design allows for easy integration into different types of installations.

- Material: PVC, known for its resistance and durability.
- Diameter: 150 mm, suitable for a wide range of applications.
- Thread: M6, compatible with multiple cistern systems.
- Color: White, for a clean and discreet appearance.
- EAN13: 8432453089738, for easy identification and reference.
- Various diameters and threads available, adapting to different installation needs.
- Known as a universal cistern replacement, making it easy to use on a variety of makes and models.

Specifications

EAN	8432453089738
Material	PVC
Thread	3/4"
