Description

The 3.5% German silver solder spool is a technical solution designed for specific applications in copper gas installations and domestic hot water systems. This product is suitable for soldering copper pipes, offering reliable performance in both hot and cold water systems. Its composition and technical characteristics make it an efficient choice for professionals seeking quality and precision in their soldering work.

- Solder diameter: 2 mm
- Available weights: 100 to 250 grams
- Complies with DIN-1707 standard
- Alloy: 114 en 9453
- Composition: 3.5% German silver
- EAN13 code: 8432453015805
