### Description

Hemp for threaded connections is a material used in the plumbing and construction industries to ensure tightness in threaded connections. This product is especially valued for its ability to expand upon contact with moisture, allowing for an effective seal even in initial leak conditions.

- Contents: 80 grams.
- Material that swells with moisture, providing a self-seal as it increases in size.
- Particularly effective on large diameter or loose threads, ensuring a tight, leak-free connection.
- Convenient format for easy application in a variety of work situations.
