45° Elbow - 100mm, DISMOL

Brand: DISMOL

Reference: GIB 004818

45-degree elbow in lacquered aluminum, ideal for evacuating smoke and gases. Its design guarantees durability and corrosion resistance, making it a suitable choice for ventilation and extraction systems in industrial and domestic environments that demand efficiency and safety.

[View product online](#)**Description**

The 45° aluminum elbow is an efficient solution for smoke and gas evacuation, designed to be integrated into ventilation and extraction systems. Its white lacquered aluminum construction not only guarantees a clean, modern aesthetic, but also provides corrosion resistance and durability in various environmental conditions.

- Angle: 45 degrees, optimized to facilitate the flow of air and gases.
- Diameter: 100 mm, suitable for a wide range of applications in ventilation systems.
- Material: White lacquered aluminum, offering a combination of lightness and strength.
- Use: Specifically indicated for the evacuation of smoke and gases, ensuring efficient and safe performance.
- EAN13 code: 8432453048186, for easy identification and management in inventories.
