

Product sheet

Source: PVC MH 87° Elbow - 110mm, IBIDE.

Brand: IBIDE

Reference: GIB 001490

The 87°, 110 mm PVC elbow is ideal for plumbing and drainage applications, offering an efficient and durable connection. Its design allows for optimal fluid flow, ensuring corrosion resistance and ease of installation in piping systems.

[View product online](#)**Description**

The 87°, 110 mm MH PVC elbow is an essential part of piping systems, designed to facilitate the change of direction of liquid flow in plumbing and sanitation installations. Made from high-quality materials, this elbow guarantees durability and corrosion resistance, ensuring optimal performance in various applications.

- **Material:** Heavy-duty PVC, providing excellent durability and corrosion resistance.
- **Angle:** 87 degrees, designed for precise direction changes in piping systems.
- **Diameter:** 110 mm, suitable for a wide range of applications in plumbing and sanitation.
- **Connection:** MH (male-female), facilitating simple and secure installation.
- **EAN13:** 8432453014907, for easy identification and inventory management.
- **Applications:** Ideal for drainage and wastewater disposal systems.
- **Regulations:** Complies with current regulations for PVC piping systems, ensuring safety and efficiency.
