

Product sheet

Source: MH 87° PVC Elbow - 160mm, IBIDE.

Brand: IBIDE

Reference: GIB 001492

PVC elbow designed to facilitate connection to piping systems with an 87-degree angle. Its construction ensures durability and strength, making it ideal for applications in plumbing and drainage installations. Its 160 mm diameter allows for proper flow circulation.

[View product online](#)**Description**

The MH 87° - 160mm PVC elbow is an essential part of piping systems, designed to facilitate the change of direction of the flow of liquids or gases in plumbing installations and drainage systems. Made from high-quality materials, this elbow guarantees durability and corrosion resistance, ensuring optimal performance in various industrial and domestic applications.

- Bend angle: 87 degrees, providing a smooth and efficient change of direction.
- Diameter: 160 mm, suitable for large capacity piping systems.
- Material: Heavy-duty PVC, known for its durability and corrosion resistance.
- Connection: MH (Male-Female), facilitating simple and secure installation.
- EAN13 code: 8432453014921, for easy identification and inventory management.
- Applications: Compatible with plumbing, drainage, and ventilation systems.
- Pressure resistance: Suitable for low and medium pressure applications.
- Working temperature: Withstands a wide range of temperatures, ensuring its functionality in various environmental conditions.

Specifications

EAN	8432453014921
Material	PVC
