

Product sheet

Source: PVC MH 87° Elbow - 75mm, IBIDE.

Brand: IBIDE

Reference: GIB 001488

PVC elbow with an 87-degree angle and a 75 mm diameter, suitable for plumbing applications. Its corrosion resistance and durability ensure efficient flow in drainage systems, allowing for easy integration into various pipe configurations.

[View product online](#)**Description**

The MH 87° - 75MM PVC elbow is an essential component in piping systems, designed to facilitate the change of direction of liquid flow in plumbing and sanitation installations. Made from high-quality materials, this elbow guarantees durability and corrosion resistance, ensuring optimal performance in various applications.

- Bend angle: 87 degrees, providing a smooth and efficient change of flow direction.
- Diameter: 75 mm, compatible with standard sized pipes, ensuring a secure and leak-free connection.
- Material: Heavy-duty PVC, known for its durability and ability to withstand harsh conditions.
- Connection: MH (Male-Female), facilitating simple and quick installation into existing piping systems.
- Corrosion resistance: PVC is resistant to chemical corrosion, extending the product's lifespan in harsh environments.
- EAN13: 8432453014884, for easy identification and inventory management.
