Product sheet

Horizontal rectangular elbow 45º - 55x110mm, GONAL.

Brand: GONAL

Reference: GIB 008748

Horizontal 45° rectangular elbow, designed to optimize ventilation and air extraction systems. Its white PVC construction guarantees durability and resistance, making it ideal for applications in aerothermal energy and smoke management, ensuring efficient and controlled flow in technical installations.

Description

The 45° horizontal rectangular elbow is an efficient solution for ventilation and air handling systems. Designed to facilitate airflow in aerothermal and smoke extraction systems, this component is essential to ensure optimal performance in various applications.

- Angle: 45°, designed for smooth direction changes in ventilation systems.
- Dimensions: 55x110 mm, suitable for standard sized ducts.
- Material: Made of PVC, known for its durability and corrosion resistance.
- Color: White, allowing for discreet integration into most environments.
- Applications: Suitable for ventilation, air handling, aerothermal and smoke extraction.
- EAN13 code: 8432453087482, for easy identification and inventory management.
