

Product sheet

Deflector - 100mm, DISMOL

Brand: DISMOL

Reference: GIB 004815

This hood is designed to optimize gas flow in atmospheric heating systems. Its white epoxy-lacquered sheet metal construction guarantees high-temperature resistance, ensuring efficient and long-lasting performance in a variety of installations. Its design includes three discs that improve the system's functionality.

[View product online](#)**Description**

The 100mm baffle is an essential component for completing the installation of flue gas evacuation systems on boilers and atmospheric heaters. Designed to deliver optimal performance, this three-disc bonnet ensures efficient gas evacuation, contributing to the safety and effectiveness of the system.

- Diameter: 100mm, with various diameter options available to suit different installation needs.
- Material: Made of white epoxy lacquered sheet metal, providing excellent corrosion resistance and a long-lasting finish.
- Thermal resistance: Able to withstand high temperatures, ensuring safe and reliable operation in demanding conditions.
- EAN13: 8432453048155, for easy product identification and tracking.
