Description

The Flutec Universal Interruptible Push-Button Flush Valve is an innovative solution designed to optimize water usage in toilet cistern systems. This device allows for the interruption of the flush, significantly contributing to water savings, an essential aspect in today's world. Installation is quick and easy, as it does not require disassembling the cistern, making it a practical option for any home. Furthermore, its silent mechanism ensures discreet operation, ideal for any environment. With a universal diameter, it fits most cisterns, guaranteeing broad and efficient compatibility. The product includes a base and a seat gasket, making installation and use even easier.

- Flush interruption for water saving
- Maintenance-free
- Silent mechanism
- Fast flush
- Quick installation, no cistern removal required
- Universal diameter
- Includes base and seat gasket
