Description

The universal swivel tap extender is a practical and efficient solution for improving the functionality of any standard tap. Designed for versatility and convenience, this device easily adapts to different types of taps, allowing for more flexible and comfortable use at home or in workspaces. Its innovative design includes an aerator that optimizes water flow, contributing to more efficient use of water resources.

- **Universal Compatibility:** Designed to fit most standard faucets, ensuring simple and hassle-free installation.
- **Two Flow Functions:** Offers two water flow modes, allowing you to alternate between a gentle stream and a spray mode, depending on your needs.
- **Integrated Aerator:** Includes an aerator that mixes air with the water, reducing water consumption without compromising pressure, thus contributing to more efficient use of resources.
- **360-Degree Rotation:** The full rotation capability allows you to direct the water flow in any direction, facilitating tasks such as washing large utensils or cleaning hard-to-reach areas.
- **High-Quality Material:** Made of ABS, a material known for its durability and wear resistance, guaranteeing long-lasting and reliable use.

Specifications

EAN	8432453147872
