Description

Figure 290 is a male threaded plug made of galvanized steel, designed to provide a secure and efficient closure on female ends of piping systems. This component is essential in applications where a reliable and durable seal is required, thanks to the properties of the material it is made of.

- Thread Type: Male
- Material: Galvanized steel, which offers corrosion resistance and durability in various environmental conditions.
- Diameter: 2 inches, suitable for a wide range of applications in piping systems.
- Color: Gray, characteristic of the galvanized finish that provides an additional layer of protection against wear.
- EAN13: 8432453002321, for easy identification and management in inventories.
