Rubber Closure Unloader "A", IDROSPANIA

Brand: IDROSPANIA

Reference: GIB 000903

Rubber seal designed for sealing discharge valves, with specific dimensions that guarantee a precise and efficient fit. Its construction ensures durability and performance in industrial applications, providing a practical solution for optimizing the operation of discharge systems. Ideal for environments requiring reliability and durability.

Description

The "A" model arrester sealing rubber is an essential component designed to ensure efficient sealing in discharge systems. Manufactured from high-quality materials, this rubber offers durability and optimal performance under a variety of operating conditions. Its specific design ensures a precise fit, contributing to the effectiveness of the discharge system.

- Dimensions: 46x23.5x8.7 mm
- Compatibility: Specifically designed for the "A" arrester model
- Material: High-strength rubber compound for greater durability
- Function: Provides a tight seal to prevent leaks
- Application: Suitable for discharge systems in industrial and domestic environments
- Sales: Available for bulk purchase

Specifications

EAN	8432453009033
Material	Goma
