Description

The 3/4" Sliding Guide Rod Float Valve is an efficient and durable solution for water level control systems in tanks and cisterns. Designed to deliver optimal performance, this float valve is made from high-quality materials that ensure its strength and longevity.

- Sliding Guide Rod: Provides precise and smooth adjustment, ensuring efficient water level control.
- Various Sizes: Available in various sizes to suit a variety of needs and applications.
- Product Dimensions: 300mm long, 35mm wide, and 70mm high, allowing for versatile installation in a variety of spaces.
- Manufacturing Material: Constructed from brass, a material known for its durability and corrosion resistance, ideal for humid environments.
- 3/4" Connection: Compatible with most standard plumbing systems, making it easy to integrate into existing installations.
- EAN13 code: 8432453002411, for easy identification and reference in inventories and catalogs.

Specifications

EAN	8432453002411
Thread	3/4"
