Description

The round rod guide float valve is an efficient solution for automatic toilet tank filling. Designed for reliable performance, this component is essential for the proper functioning of the toilet water filling system. Its robust construction and high-quality materials ensure a long life and trouble-free operation.

- Round rod: Provides stability and a precise fit in the filling system.
- Different sizes: Available in various sizes to suit different tank configurations.
- Dimensions: 300mm x 35mm x 70mm, allowing versatile installation in various toilet models.
- Made of brass: Corrosion-resistant material that ensures durability and reliability in humid environments.
- 1 1/2" - 9/100 thread: Compatible with a wide range of standard plumbing systems.

Specifications

EAN	8432453086089
Thread	1 1/2"
