Description

The round rod guide float valve is an efficient solution for automatic toilet tank filling. Designed to offer reliable performance, this component is essential for the correct operation of the toilet water filling system, ensuring a constant and controlled flow.

- Round rod: Provides stability and a precise fit inside the tank.
- Different sizes: Available in various lengths to adapt to different types of tanks.
- Dimensions: 300mm x 35mm x 70mm, allowing easy installation and a proper fit in most standard tanks.
- Made of brass: Corrosion-resistant material that guarantees durability and optimal performance over time.
- M8 thread: Ensures a firm and secure connection, compatible with most WC filling systems.

Specifications

EAN	8432453088809
Thread	M8
