Description

The urinal timer tap is an efficient and durable solution for sanitary installations that require precise control of water flow. Designed to offer reliable performance, this tap combines high-quality materials with a functional design.

- Made of brass: This material guarantees excellent corrosion resistance and a long life, even in intensive use environments.
- Chrome finish: Provides a shiny, easy-to-clean surface, maintaining its impeccable appearance over time.
- Brass timer cartridge: Allows precise control of water flow time, optimizing consumption and reducing waste.
- M1/2 thread inlet: Compatible with most standard installations, facilitating its integration into existing systems.
- Impurity filter: Helps keep the water clean and free of particles, protecting the internal mechanism of the tap and ensuring smooth operation.
